To Attend Our Complimentary Seminar

Do not miss this educational EMI/EMC seminar with factory experts on hand!

Who Should Attend

EMI/EMC Engineers, Managers or supervisors involved in pre-compliance or compliance testing who are looking to expand in-house capability. Engineers looking to expand their knowledge on requirements and standards such as IEC61000-4-5: Edition 3 or related topics. Also any engineers tasked with specifying compliant or pre-compliant anechoic chamber, enclosures, or screen rooms that would like to learn more. Attendees should have a basic understanding of electrical engineering principles.
