PRESS RELEASE

ProTEQ Solutions LLC., based out of Nashua, NH., announces that they have signed an exclusive contract to represent Teledyne LeCroy which now includes their **High-Speed Protocol Test** solutions for both their New England & the Mid-Atlantic Territories.

ProTEQ is a tier-one test and measurement manufacturer representative company serving New England with a long history of representing leading-edge products to support the high-technology market. These products are used in all types of applications including the Electronics & RF/ Microwave technologies.

They serve the Communications, EV, EW, Medical, Semiconductor, Defense Markets, and more.

In addition to Oscilloscopes, Teledyne LeCroy is the leader in the development of Protocol Analyzers which are tools used by designers and engineers to generate and monitor traffic over high-speed serial data interfaces, including the latest in technologies for DDR, PCI Express, Fibre Channel, Wi-Fi, Bluetooth, Serial ATA, SAS, USB and others. Founded in 1964 and headquartered in Chestnut Ridge, New York, they help enable companies across a wide range of industries to design and test electronic devices of all types.

Teledyne LeCroy's scopes and protocol cutting-edge products are critical in the development of future technologies with a wide variety of demanding design applications.
